Output

```
Inorder before any deletion: 20 30 40 50 60 70 80

Case 1 - Delete a leaf node (0 children): deleting 20
Inorder after deletion:      30 40 50 60 70 80

Case 2 - Delete a node with 1 child: deleting 60, then 70
(removing 60 first leaves 70 with a single child, 80)
Inorder after deletion:      30 40 50 80

Case 3 - Delete a node with 2 children: deleting root 50
Inorder after deletion:      30 40 80
```
